Dear Sir,

I thought I will write a few lines to let you and my classmates know that I'm still alive.

I guess my health is pretty good except for diabetes and high blood pressure.

I now live with my youngest son, Lester Jason Clark and his wife Shelly Clark. They have 3 girls, Katie age 12, Carly age 9, and Dawn, age 15.

When my house burned down in Dec 2017 Dawn gave me her bedroom.

I have been married 2 times. The first marriage lasted from 1961 to 1972. My second marriage last from 1973 to 2013 when my husband,

Norman H. Clark died at the age of 71. We were married over 40 years. I really miss him. We had 3 children. - Norman Ray Clark, Rhonda Jean Clark, and Lester Jason Clark. I, also, have a daughter by my first marriage. Her name was Carolyn Marie Dennis. Her married name is Carolyn Marie Milliner. I had 4 children altogether. I have 12 grandchildren living and one dead. My grandson, Jacob Anthony Vincent was born with a hole in his heart and a defective heart valve. He died after open heart surgery at Kossars hospital in Louisville. I have 17 great grandchildren and 2 great-great grand-~~babies~~ babies

I worked for Kansas sewing factory for several years and then for Phar-Sher factory for 7 years. We made jackets for Polo. I, also, worked for MTD for 7 years. We made transmissions for G. E. washing machines. I, also, helped with farm work. We raised cattle and tobacco.

Since I was an only child I quit work for about 8 years to take care of my parents when they both were in bed sick.

I still look after my daughter Rhonda Jean Armstrong. She is disable. She is a diabetic and also, has seizures. She has passed out and fell in the floor.

I call her ~~her~~ everyday and take her
to Doctor appointments.

That is just about the story
of my life.

Yours truly
Shirley Ann
